PROFILE

B.Tech student interested in artificial intelligence, machine learning, and practical data analysis. Built small academic projects using Python and common data science libraries.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science — Example Institute of Technology, 2023–2027

TECHNICAL SKILLS

Python, SQL, Pandas, NumPy, scikit-learn, Machine Learning, Data Analysis, Data Visualization, Git, GitHub, HTML, CSS, C++, Statistics, Jupyter, Problem Solving, Communication, Teamwork.

PROJECTS

Student Performance Analysis
• Used Python, Pandas and Matplotlib to clean and explore a sample academic dataset.
• Created visual summaries and documented key observations.

Machine Learning Classification Demo
• Trained a simple scikit-learn classification model on a public learning dataset.
• Compared model metrics and explained limitations in a short project note.

EXPERIENCE

Academic project work and collaborative coursework; no professional internship experience claimed.

CERTIFICATIONS & ACTIVITIES

Self-directed learning in Python and data analysis; participated in group coursework and peer presentations.
